All organizations will be engaged in the implementation of the **"Manual on social entrepreneurship"** containing the results of the comparative study in Europe on success stories of social enterprises with a significant social impact on the territories in which they operate.

The Manual will also provide information about the methods of approach and teaching to young people, in particular disadvantaged young people, on how to start a startup, with a focus on social enterprise.

## "Young people and Social Enterprise"

The partners are in the process of organizing the first ESE Local Event to involve the local community and inform interested stakeholders about the project and its activities.

During the events, the partners will disseminate information about the project to their network.

One of the priorities of our project is promote engaging, connecting and empowering young people above all of the disadvantaged people.
